

Weiler/Kassim/All
KISS – Keep It Simple,

- 2U/3U single CubeSat
- Single or crossed dipole(s)
- Lunar orbit
- Spectrometer
- Band (MHz) – 50-150? 5-50? 0.5-5? 0.1-50? TBD
- Battery for operation in dark
- Store and forward data for observing on far side
- Precursor to DARE (?)
- EoR/Dark Ages limits
- RFI in space/behind Moon
- Integrate 2 years
- Test Dynamic Range (DR) possible
- Lunar ionosphere
- Redo RAE2 (all sky map)
- Occultation of bright sources/planetary emissions
