The Keck Institute for Space Studies  
and the Planetary Society  
present a free public lecture:

# Exploring Mars, the Moon, Asteroids, and Comets with Rovers and Landers

Professor Jim Bell  
Arizona State University

---

Wednesday, February 20, 2013

8:00 PM

Beckman Auditorium  
California Institute of Technology

---

Professor Bell will review some of the recent highlights from Mars surface missions (especially the continuing adventures of the Opportunity and Curiosity rovers), discuss the kinds of up-close contact science measurements that can be done from such robotic vehicles, and talk about how the lessons learned from these missions can influence future Mars, asteroid, and comet rovers and landers.

---

No registration is required for this free lecture.  
Seating is limited and is available on a first come, first served basis.
