

The Keck Institute for Space Studies
presents a short course on:

Ocean World Microhabitats: Targeting and Life Detection Techniques

Monday, September 19, 2022

8:15 A.M. Coffee

8:45 A.M. - 12:30 P.M. Short Course

The Think Tank

Keck Center 155

California Institute of Technology

Dr. Mike Malaska - JPL

Ocean World Microhabitats 101

Prof. Jeff Marlow - Boston University

Microbes of Extreme Environments

Dr. Kris Zacny - Honeybee Robotics

Robotic Acquisition Techniques

Dr. Mary Beth Wilhelm - NASA ARC

Geochemistry, Biosignature and Life Detection
Techniques
